## EDUCATION

### Sri Mittapalli Institute of Technology for Women

*Bachelor of Technology in Computer Science and Engineering Cum. GPA: 8.15 / 10.0*

Guntur, IND

### Narayana Junior College

*Intermediate Score: 920 / 1000*

Guntur, IND

### Blue Bells Public College

*High School Cum. GPA: 8.80 / 10.0*

Guntur, IND

*June 2015 – April 2016*

## EXPERIENCE

### Specialist Programmer

*Infosys*

Aug 2022 – Present

*Hyderabad, IND*

### Australian Open 2023 | Rolland Garros 2023

**Technologies Used:** React, TypeScript, HTML, CSS, SCSS

- Developed and maintained responsive and cross browser compatible web applications using React.js
- Collaborated with the design team to implement pixel-perfect UI/UX designs
- Worked closely with backend developers to ensure seamless integration of front-end and back-end components
- Participated in Agile development processes
- Conducted thorough testing and debugging, resolving 95 percent of frontend issues before the client testing phase
- Provided production support, ensuring 99.9 percent uptime and addressing critical issues with an average resolution time of 4 hours.

### ORCA - Apple Inc.

**Technologies Used:** React, TypeScript, HTML, CSS, SCSS

- Contributed to an Apple project focused on building a custom React framework.
- Developed reusable components such as search fields, dropdown menus, and file upload modules.
- Ensured components met Apple's standards for performance, accessibility, and user experience

## PROJECTS

### Infy GPT | React, MUI, Node, MongoDB, Python, AI

July 2023

- Developed the entire UI of a ChatGPT clone application with an additional feature to accept image prompts as part of a team for a 30-hour makeathon conducted by Infosys
- Collaborated with a team of 4 members to design and implement user-friendly interface
- Utilized React and Material-UI to create a responsive and visually appealing UI.
- Presented the application to an audience of 100+ participants, receiving positive feedback and a satisfaction rating of 4.7/5.

### eKart | React, TypeScript, HTML, CSS

Oct 2022

- Developed the frontend of the eKart application as part of a comprehensive training curriculum in Infosys
- Implemented user interfaces to create a responsive and intuitive shopping experience.
- Collaborated with a team of 5 members to design and implement key features, such as product listing, cart management, wishlisting and checkout process.
- Completed the project within the specified timeline of 3 days and presented the application to the training curriculum evaluation committee, received positive feedback and a rating of 4.5/5 for the frontend implementation.

### Library Management System | HTML, CSS, Javascript, PHP, MYSQL

Dec 2020

- Developed a full-stack web application using HTML, CSS, Javascript as the frontend
- It is a web application that manages and stores books information according to student needs
- Worked in a team of 4 and built this as a part of web technologies course

## TECHNICAL SKILLS

**Languages:** Python, Typescript, JavaScript, HTML, CSS, SCSS

**Frameworks:** React, Bootstrap

**Developer Tools:** version control (Git), VS Code

## POSITIONS OF RESPONSIBILITY

- Participated in various NSS activities organised by NSS unit of SMITW
- Lead a team successfully in conducting technical event during SMITW 2019 - 2020
